“People are concerned with the direction this country has been headed,” Bilirakis said. “Washington has ignored the voice of the American people and pushed through an agenda that grows the size of the government and the national debt. This pledge shows that House Republicans and I are committed to creating jobs, reigning in spending, fixing a dysfunctional Congress, keeping America safe, and offering affordable health care solutions. Americans have spoken out and we are listening.”

The pledge is the culmination of a months-long engagement with the American people that offers concrete solutions that can be implemented immediately to tackle the issues that Americans have said are most important to them. The full agenda can be viewed here .
