

Energy Resource Kit

The sharp increases seen at the gasoline pump affect all Floridian families as we drive to work, operate a small business or take our children to school. Below I have assembled a list of resources that will assist you in learning more about what comprises the price we pay at the pump, tips for conserving, and where to find the lowest gas prices in your area.

* Find the Lowest Gas Prices in Your Area *

UPDATE - 8/29/08: Gus visits a local gas station to get your input on gas prices - [CLICK HERE](#) for more.

Federal Resources:

- U.S. Department of Energy Information Administration Gas Price Breakdown
- U.S. Department of Energy Information Administration Gasoline and Diesel Fuel Update
- U.S. Department of Energy Tips
- This Week In Petroleum

Local Resources:

- State of Florida Energy Profile
- Florida Energy Office

Energy Conservation:

- Learn Your Car's Mileage Per Gallon Rating
- Tips for Conserving Fuel
- U.S. Department of Energy, Energy Efficiency and Renewable Energy

- Alternative Fuels
