

## Veterans Resource Page

One of the major issues I have been working on during my first three years in Congress deals with the veterans who have served this country with great honor and distinction. I recognize the great debt of gratitude owed to these American heroes. That is why I fought hard in my first few weeks in Congress to be placed on the House Veterans' Affairs Committee. I also chair the Republican Policy Committee's Task Force on Veterans' Affairs. Leading the fight to provide our veterans and service members with the pay and benefits they deserve, I have introduced legislation to address the concurrent receipt of military retired pay and VA disability, expand the Combat-Related Special Compensation (CRSC) program and increase military pay. Below you will find a list of online veterans resources.
